

## AUSTRIA 2008

### NEW ULTRA-FINE CLASSIFIER FOR COATED MAGNESIUM HYDROXIDE

- replacement of a 3<sup>rd</sup> generation classifier with CLASSICLON DF
- custom-made design for handling very fine and adhesive products
- entirely made of stainless steel and special alloys

### RESULTS

- production capacity doubled from 1 t/h to 2 t/h
- stable classification at 45µm top-cute with high efficiency
